

Muhammad Kashif Khan

Node JS Developer | Full Stack Developer

Highly skilled Senior Full Stack Developer with over 8+ years of experience in designing and developing robust web applications and backend systems. Expertise in Node.js, React.js, and PostgreSQL, with a strong focus on REST API development. Proven ability to collaborate effectively with clients and stakeholders, delivering top-tier software solutions that meet business objectives. Demonstrated success in both independent and team-based roles, excelling in remote and on-site environments. Proficient in Agile methodologies and highly experienced in code maintenance and troubleshooting.

WORK EXPERIENCE

Tech Lead | Senior Node Js Developer

Ali Square

05/2023 - Present

Achievements/Tasks

- Led the technical direction of projects, including making key architectural decisions and establishing coding standards, while mentoring and guiding junior developers.
- Designed, developed, and maintained software applications, consistently adhering to coding standards and best practices.
- Conducted code reviews, resolved complex technical issues, and made informed decisions that ensured the successful and timely completion of projects.

Senior Node JS Developer

DevSurge

01/2022 - 05/2023

Lahore, Pakistan (Remote)

Role

- Drove high-level architectural discussions and implemented solutions that aligned with project goals and technical requirements.
- Achieved a 75% reduction in processing time for 70,000 to 100,000 orders, decreasing the time from 1 minute to under 4 seconds by redesigning the algorithm.
- Developed and optimized scripts for automating data-intensive and processing-heavy tasks, significantly improving efficiency and accuracy.

Full Stack Engineer

glasc.io

05/2018 - 01/2022

Johannesburg, South Africa (Remote)

Role

- Develop robust software designs and architectures that meet high-quality standards and align with business goals.
- Design, develop, modify, implement, and support software components across the entire software stack, ensuring seamless integration and performance.
- Identified and resolved critical bugs, contributing to a stable, scalable, and efficient codebase.

Full Stack Engineer

Barefoot&Co

01/2017 - 03/2018

Belgium (Remote)

Achievements/Tasks

- Develop robust software designs and architectures that meet high-quality standards and align with business goals.
- Design and optimize backend architectures, including APIs, databases, and server-side logic, to ensure high performance and reliability.
- Integrate APIs and troubleshoot full-stack issues, optimizing code and systems for efficiency, reliability, and scalability.

KEY EXPETISE

JavaScript (TypeScript, ES9)

Node.js

OpenAi

LLM

React

Nest.js

Next.js

Express.js

PostgreSQL

Cassandra

MongoDB

Kafka

Redis

RabbitMQ

Docker

Kubernetes

Jest

Chai

AWS (EC2, S3 Bucket, Load Balancer)

Elasticsearch

Python

Angular

Ionic

LLM

Tailwind

KEY PROJECTS

Oware - Devsurge

- Enabled scalable, tech-driven warehousing and distribution for B2B and retail clients through a connected network of fulfillment centers and third-party logistics service providers.
- URL: <https://oware.co>

Turing Insights - glasc.io:

- Turing Insights solves challenges in the bulk transport industry, by having accurate real-time visibility on payloads and vehicles.
- URL: <https://turing-insights.com>

Kowo - Barefoot&Co

- Kowo is a mobile and web application organizing and motivating inter-company carpooling.
- URL: <https://www.kowo.io>

DEMOCY (Hybrid App)

- Democracy based user feedback system
- URL: <https://democy.de/>

Ride Pro - Alisquare

- ride-sharing and car rental services into a single, seamless platform. Users can either book affordable shared rides or rent a car for personal use, catering to diverse mobility needs. With real-time tracking, secure payments, and transparent pricing, the app ensures a reliable and user-friendly experience. Designed for scalability, it connects drivers, car owners, and passengers through an efficient and tech-driven ecosystem.

Invoice

- Invoice Simple is a fast and easy *invoice app* for sending invoices and estimates to your customers.

EDUCATION (08/2011 - 08/2015)

- BS Software Engineering University of Engineering & Technology , Taxila UET
